**Subject:** Elwha NPDES request

**Importance:** High

Brian,

I would like to obtain all the information that you may have that was used and considered for the original development of the Elwha NPDES/DMR. The permit number is WA-00266-2. I am wanting to apply for some changes to the permit for the renewal in February 2014 and would like to review the information that was part of the original DMR development.

I would really appreciate it if you have any contact names and phone numbers of persons at the State of Washington that was involved in the original NPDES/DMR so that I can brainstorm some ideas.

If you have any questions please let me know, scanned copies of the documents will be fine.

Thank you,

**Tom Hubbard**
